This is part 2 of the "Bracelet Bead Pattern - Pearls, Crystal and Silver" series. Learn how to string the first strand of beads.

Content:

Welcome to Part 2 of "Bracelet Bead Pattern - Pearls, Crystal and Silver "

Skills required: [Crimping](#) Stringing Beads

[Click here to read Part 1 of "Bracelet Bead Pattern - Pearls, Crystal and Silver" for the supply list.](#)

Refer to the letters in this chart when referencing which beads to string in the pattern below: Beads A Size 11 Seed Beads Clear B 3mm Silver Bead Sterling Silver

C 4mm Spacer Bead Antique Silver Plated D 6mm Glass Pearl White E 4mm Crystal Bicone Crystal Clear

Stringing the first strand of beads

Step 1. Cut off 8" of stringing wire.

Step 2. String one end through a crimp tube, through the hole of one side of the clasp, back through the same crimp tube.

Step 3. Crimp the crimp tube with crimping pliers.

Step 4. Cover the crimp tube with a crimp cover using your flat-nose pliers.

Step 5. String beads on in the following order: 1 E 1 C 1 D 1 C 1 E 1 B

Repeat the above pattern 7 more time. Then string...

1 E 1 C 1 D 1 C 1 E

Step 6. When you get to the last bead, string a crimp tube, thread the wire through the ring of the other half of the clasp, back through the crimp tube and crimp.

Step 7. Cover the crimp tube with a crimp cover.
