For the holidays, nothing's easier than decorating gift boxes, wreaths, your tree and doors with beaded snow flakes. Learn how to make a super fast and easy beaded snow flake.

## **Content:**

For the holidays, nothing's easier than decorating gift boxes, wreaths, your tree and doors with beaded snow flakes.

It's amazing how something so simple can add a ton of elegance to any holiday decorating project.

You will need:

Snowflake ornament wire form

Assortment of brilliant beads (crystals, rhinestones, metals)

Clear rubber earring backs

Organza ribbon

Instructions:

1. Slide your beads onto the form. Starting with a 4mm bicone works best and creates a shiny center.
2. Cap off the ends with the clear earring backs. You can of course end your wires with any wire technique
3. Wrap organza ribbon around one point and hang!

Wasn't that simple. Just imagine beautiful beaded snowflakes all over your home. Give as gifts. Hang on wine bottles. In front of mirrors.

Have fun and happy beading!
